How our Nurses feel about working here

“Community nursing is my passion because it allows me to focus on the member’s holistic care. I am able to identify strengths and challenges specific to the member by working with them in their own homes. I feel this type of nursing offers members a greater chance of experiencing improved health outcomes by developing interventions into their daily routines.”

- Heather, RN

“Community nursing is the best job I never knew I wanted. It allows me to use my nursing skill set while caring for members in their own homes and communities. As an employer, My Choice allows me to use my critical thinking skills in the most creative ways to ensure the health and safety of the members I serve.”

- Christa, RN

“I get to know my members, their families, neighbors, and their caregivers. They get to know me and together, we have the opportunity to build a relationship.”

- Michael, RN
