Medicaid

Partnership gives members the extra help they need to be healthy and safe.

Caring starts here.

## What is Partnership?

The Partnership program helps frail elders and adults with disabilities with higher care needs coordinate their medical, health, and long-term care services. Members enrolled in the Partnership program work with a local Care Team consisting of a Care Manager, a Registered Nurse, and a Nurse Practitioner, plus anyone else the member wants involved, to create a personalized plan that will help them live their fullest life as independently as possible. My Choice Wisconsin supports the Partnership program in 12 counties in Wisconsin.

## What do we do?

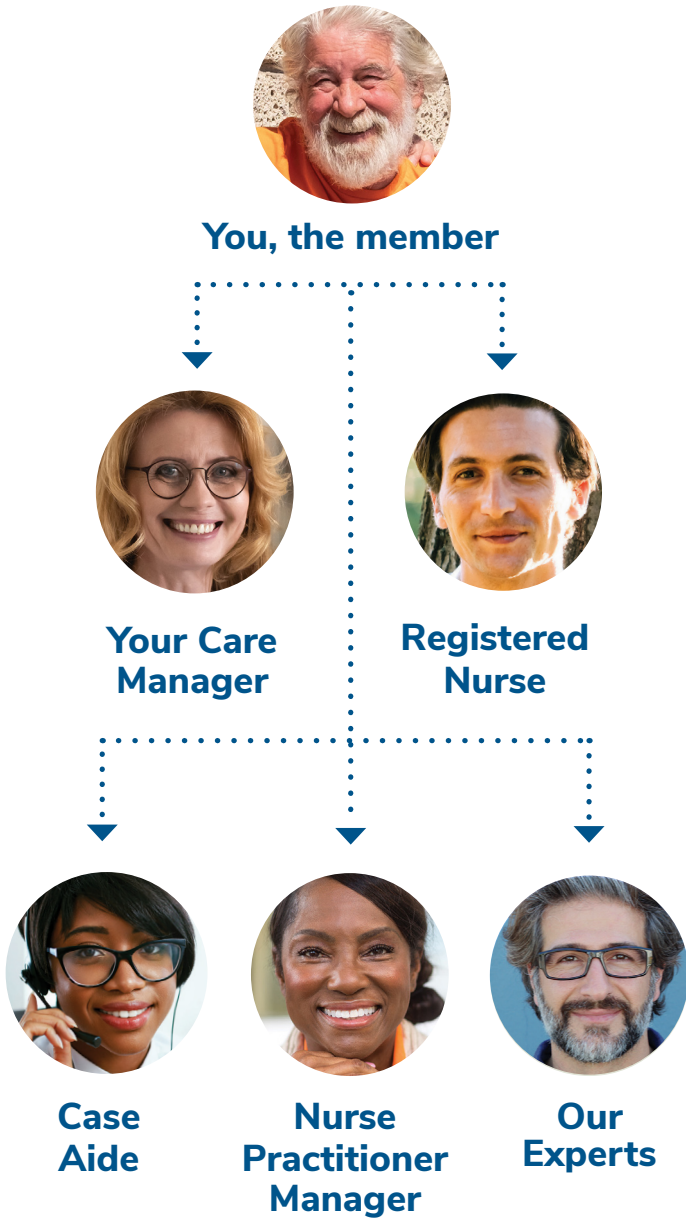

My Choice Wisconsin is a managed care organization with a passion for putting our members first. With three programs across Wisconsin, members receive long-term care and health services to help them live their best lives independently in their own communities. We offer Family Care, Family Care Partnership, and Medicare Dual Advantage.

My Choice Wisconsin works collaboratively with local agencies and health care providers to ensure our members have ample choices and high-quality support and services from a diverse network.

# What is Care Coordination?

Your Care Manager and your Registered Nurse (RN) are your main contacts and the primary managers of your care plan
