MOLINA HEALTHCARE

PASSPORT BY MOLINA HEALTHCARE

Senior Whole Health BY MOLINA HEALTHCARE

my choice WISCONSIN BY MOLINA HEALTHCARE

Purpose of the Model of Care (MOC) Training

- Understand requirements of Dual Special Needs Plans (D-SNPs) and Chronic Condition Special Needs Plans (C-SNPs)
- Description of the Model of Care (MOC) Elements:
  - MOC 1- Description of the SNP Population
  - MOC 2-Care Coordination
  - MOC 3- Provider Network
  - MOC 4- Quality Measurement and Performance
- Summary of provider responsibilities and Provider Collaboration
- Attestation process to document compliance with annual MOC training

Special Needs Plan (SNP) Markets

Dual Special Needs Markets
• Arizona • California • Idaho • Kentucky • Massachusetts • Michigan • Mississippi • Nebraska • Nevada • New Mexico • New York • Ohio • South Carolina • Texas • Utah • Virginia • Washington • Wisconsin

Chronic Special Needs Market
• California • **For more information on the SNP types and requirements use the following link:** • https://www.cms.gov/Medicare/Health-Plans/SpecialNeedsPlans

Dual Special Needs Plan (D-SNP)

Member must maintain eligibility for both Medicare and Medicaid.

- Full Benefit duals are eligible to receive Medicaid benefits.
- Partial benefit duals are only eligible to receive assistance with some or all Medicare premiums and cost sharing

Coordination of care and cost share requirements must be followed.

- Coordination between Medicare and Medicaid benefits required.
- Member may have another carrier for the Medicaid coverage such as behavioral health.

State Medicaid Agency Contract (SMAC)

- Contract may outline additional benefits or care coordination requirements.
- Services or benefits may be provided by agencies such as health homes.
- Appeals and grievances may be integrated.

Chronic Special Needs Plan (C-SNP)

To enroll in a C-SNP:

- A member must have Medicare coverage
- Have a confirmed diagnosis of the qualifying condition/conditions as defined by CMS and offered by the plan.

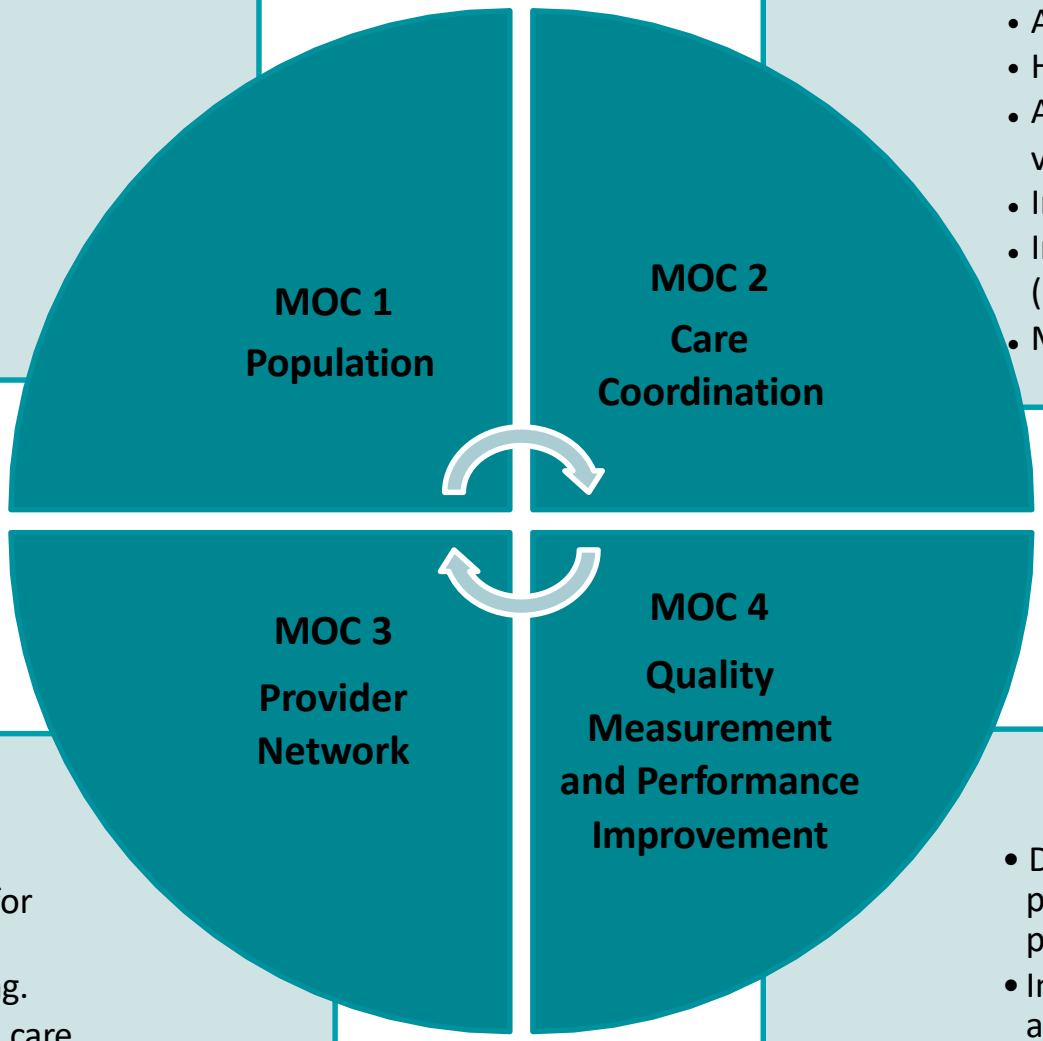
In California we offer the following C-SNP types:

- Diabetes, Congestive Heart Failure
- Cardiovascular Disease- must be one of the following:
  - Cardiac arrythmias
  - Coronary artery disease
  - Peripheral vascular disease
  - Chronic venous thromboembolic disorder

Please complete and return any correspondence you may receive asking to confirm the qualifying condition.

Model of Care (MOC) Elements

- Description of the population in the SNP plan.
- Determining eligibility.
- Defines our most vulnerable members.
- Identify relationships with community partners.



- Staff structure and oversight process.
- Annual associate MOC training.
- Health risk assessment process.
- Annual Face to Face provider visit.
- Individualized care plan (ICP).
- Interdisciplinary care team (ICT).
- Managing transitions.

- Provider network with expertise to care for the SNP population.
- Annual provider training.
- Practice guidelines and care transition protocols.

- Defines our quality performance improvement plan.
- Includes how we identify, define and measure goals and health outcomes.

Care Coordination Processes

- **Health Risk Assessment (HRA)**

  Completed initially within 90 days of enrollment, repeated annually and after a significant status change.

  Identifies areas of unmet needs to address in the ICP.

  Assesses physical, behavioral, cognitive, psychosocial, functional status and social factors impacting the member.

- **Individualized Care Plan (ICP)**

  Includes member-specific goals and interventions based on needs identified during the assessment process.

  The ICP is updated annually or if a significant change in status occurs and made available for the ICT.

  Addresses coordination of care needs with providers, external agencies, community resources, and Medicaid benefits.

- **Interdisciplinary Care Team (ICT)**

  All SNP members have an ICT to provide and coordinate care. Composition is determined based on member needs, and member preference.

  Providers, especially the PCP are key members of the ICT and responsible for coordinating care and managing transitions.

  May review or contribute to the ICP.

  The CM coordinates communications with ICT by mail, phone, provider portal, email, or fax.

  Each member must have an annual face-to-face encounter with a provider or another member of the ICT.

We embrace a person-centered, community-focused approach that assists us in identifying our member's unique needs, enabling us to connect our members with local services and resources to help support them in reaching their healthcare goals.

Provider Collaboration with the ICT

We want to partner with you and work together for the benefit our members.

MOC 4 Quality Measurement and Performance Improvement

Molina creates an annual quality improvement plan that focuses on our membership and includes identifying measurable goals and outcome objectives.

Data is collected, analyzed and evaluated throughout the year to monitor and measure the overall performance.

Each year, an evaluation is performed, and improvement actions are identified and incorporated into the next year's quality improvement plan.

MOC 4 Quality Measurement and Performance Improvement.

Additional elements in our Quality Program Include the following:

Measurable Goals and Outcomes	• Identify and clearly define measurable goals and health outcomes. • Establish methods to track impact. • Determine if goals are met. • Describe steps if goals are not met.
Measuring Patient Experience of Care	• Describe tools used to measure satisfaction. • How results of surveys are integrated into our plan. • How we address issues identified from results.
Ongoing Performance Improvement and Evaluation	• How we use results of indicators and measure to support ongoing improvement of our program. • How we use results to continually assess and evaluate quality. • Our ability for timely response to lessons learned through the evaluation. • How we share our performance improvement evaluation.

Summary of Provider Responsibilities

- Communicate and collaborate with our Case Managers, ICT members, Molina members and caregivers.
- Coordinate care with Medicaid for any of the D-SNP members, which may include other carriers and state agencies such as Long-Term Services and Supports (LTSS) partners, Behavioral Health Services Only administrators, Home and Community Based Providers
- Access important member information on the provider portal including the assessment results, the ICP and members of the care team.
- Encourage your patient to work with your office, keep appointments and comply with all treatment plans, participate with the care team, and complete the Health Risk Assessment (HRA).
- Participate in quality measures and close care gaps.
- Review and respond to correspondence sent by our case managers, sign and return the ICP attestation if requested.
- Review annual provider training and complete attestation.

Model of Care Training Attestation

To document completion of this training, please complete and sign the attestation form:
https://www.molinahealthcare.com/providers/common/MOC/2025/WI

If the training was delivered in a group setting, one attestation form and an attendance roster should be submitted by the designated staff member with the authority to sign on behalf of your provider group.
